

Sage 300 National Account Code Change Utility

Easily associate a Sage 300 Customer Code with outstanding balances to a new National Account Code with this easy-to-use utility.

The screenshot shows a Windows-style dialog box titled "SAML67 - National Account Code Change Utility". It features two radio buttons: "Change Customer" (which is selected) and "Change Customer with Customer Group". Below the radio buttons, there are two search input fields. The first field is for the customer code, and the second field is for the national account code, with a "To" label between them. At the bottom of the dialog, there are two buttons: "Proceed" and "Cancel".

Save time and effort when associating a Customer Code with a new National Account Code with this simple utility that allows you to bypass Sage 300's default requirement for zero balance for all documents.

Make re-assigning a customer or entire customer group to a new National Account Code easy.
